

## Recent Operations

By Paul Rardin

Most newspapers these days are having a lot to say about new taxes. So, I believe I'll fall in line and talk about taxes a little this week.

A transportation tax went into effect Dec. 1, 1942 and I'm of the opinion that a lot of folks in these parts overrode the importance of it.

First thing I'd like to mention is the penalty attached when a transportation concern failed to register as such immediately. The law went into effect. \$30 is the penalty.

You may say that it doesn't affect you. Maybe not. But, it does affect a flock of folks in these parts. For instance, the contract bean picker—who hauled beans to the platform—or hauled beans to the field for a grower or broker—or maybe hauled bird boxes—he's in for a surprise.

I knew about the tax but I was a lot of other folks—thought that it applied only to commercial carriers and the like—but, not so, agriculture isn't exempt from this particular tax. A closer reading of the law this week brought home the fact that many extra dollars will necessarily have to be dug up from somewhere to pay this tax.

According to the law the contract bean picker—who transported beans, hampers or whatnot—is supposed to act as Uncle Sam's collecting agency in this particular deal. The man who owns the transported product pays and it is up to the one doing the transporting to see that this tax reaches Uncle Sam's coffers.

How much is the transportation tax? Three per cent!

Well, there's a little supposing. Suppose a contract picker agrees to transport beans to the platform after they're picked and perform all the little odd jobs that a contractor performs for a certain amount. It is his duty to figure out to the penny what percentage of this certain amount was collected for transportation. On that percentage of the amount he pays 3 per cent apiece.

Maybe it sounds complicated. I say I've never been able to figure out how you get in touch with your accountant and find out how you stand.

A representative of Uncle Sam enlightened me this week on a lot of things. Among them, the fact that a farmer spending cash for a payroll MUST show to whom paid and substantiate proof of payment.

The custom in this section is to go to the bank and get a sack full of money. Take it to the bean field and pay off the pickers. A record is kept, of course, of the gross amount of the payroll. But, the user isn't going to be satisfied with such record. It is necessary to show him in black and white to whom the money went and how much.

I don't suppose anybody but me would ever think about such a thing, but, suppose I make out a check for \$2,000 payroll. Get it cashed at the bank. The cash is in my hand. I find much to my surprise that I need only \$500 to pay all laborers. Guess I shove the balance of the cash in my pocket. It's my money. I can do with it what I like. But, let's figure a little more. Where does Uncle Sam come in when income has time comes? My check is cashed \$2,000 for payroll that day. So I'm up on the job \$500. Or 17 Maybe that's the reason he wants all this information about how much and to whom etc., etc.

But, I don't farm, and no one ever heard of economy weekly having that say payroll, so why should I get all hot and bothered about it?

Sixty-seven more names were added to the Pahokee-Canal Point Service Men's honor roll in Pahokee on Tuesday of this week, bringing the total number of names on the board up to 379.

Here's a little story about bugs!

Bugs! Little black ones—about the size of your little finger nail—were seen 'em around lights at night when bugs are really here in the Everglades. 5000 kind of a beetle.

But, have you ever seen 55 gallons of 'em in one heap? That's a lot of bugs even in the Everglades. Anybody that's had many bugs officials at the Everglades Experiment Station picked up last Thursday morning under one 200 watt lamp just outside one of the station buildings.

Fifty-five gallons of bugs! Well, we wouldn't believe it either but two of the station officials, told us the story. They said they had by actual measurement there were 55 gallons.

## GEARED FOR VICTORY

## Holland Went Run Against Senator Pepper

MIAMI, July 8. (FNS)—In Miami this week to dedicate the Dade County War Memorial in Bayfront Park, Governor Spessard L. Holland told newsmen that he hoped to enter the military service at the expiration of his term as Governor in January, 1945.

Holland served in the air corps during the first world war and possesses the Distinguished Flying Cross awarded for "extraordinary heroism in action."

"I don't know in what capacity military authorities would take me, but I'll never be happy unless I get into this thing somehow," he said. "I don't know in what capacity military authorities would take me, but I'll never be happy unless I get into this thing somehow."

His statement definitely takes him out of the race for the Senate against Claude Pepper who must stand for reelection next spring. It has been generally conceded that Holland could win if he would run but he has consistently refused to consider it in spite of the efforts of friends and followers to get him to do so.

The Governor was accompanied by Mrs. Holland and their daughter Mary Grover.

## State Markets Break All Records

JACKSONVILLE, Fla., July 8. (Special)—"I am reporting to Nathan Mayo, commissioner of agriculture, that the State Farmers' market, which he created, have surpassed all records this year. While our quota is not yet complete, it now appears certain we will show sales of more than \$20,000,000 of farm products compared with \$13,500,000 last year. William L. Wilson, director of State Farmers' markets, said in his crop and market review.

"Sales of fruits, vegetables and nuts this year total more than 600,000 as compared with 598,567 last year. Livestock sales exceeded \$3,500,000 as compared with \$2,884,867 last year and eggs and poultry sales totaled \$1,013,897," he reported.

"With cigar consumption reported 30 per cent above last year and immediately following the normal, Florida tobacco growers are expecting a banner season this year."

"State markets at Lake Okechobee and Lake City are preparing for the opening auction date tentatively set for July 27. This is the same date on which they opened last year but is about a quarter of a century later than has been customary in former years."

"Several weeks ago it was feared that production would fall short of the normal, but recent rains have improved conditions greatly and we are confident that we will have one of the best years in our history."

"As long as the government holds our growers to the present quotas we cannot hope to supply the cigaret demands of civilians and soldiers in full. Florida has more room for expanding cigaret tobacco production than any of the other producing states. We expect we will be granted sufficient increase in our quota to provide for the increased demand," he said.

"Melons is the only vegetable crop that is being produced in large volume. It reports considerable supplies of melons, cantaloupes and peaches," he said.

On vacation at cottages at Fort Myers Beach this week were Mr. and Mrs. Roy Segre and son, Mr. and Mrs. Lyle Friend and children, Mr. and Mrs. Rupert Mock and children and Mr. and Mrs. L. O. Snyder.

John W. Clark of Waverly and John Ford, president and secretary, respectively of the Florida Farm Bureau, served as temporary secretary and chairman of the meeting at which a statewide Florida Vegetable Committee, was set up.

The following program was adopted without a dissenting vote: "Duty of the committee will be to study and impartially represent the Florida vegetable industry in its negotiations with public and private agencies with respect to labor, packages, fertilizers, seed, material, machinery and supplies, freight rates, transportation, price ceilings and floors, fuel, tires, agricultural service, service deformities, tariffs and other industry problems which develop."

### SILK STOCKING TRICK

To a man on the "outside looking in" it appears that the investigation by a senate committee of the tax collecting methods of Comptroller Jim Lee is a political trick of the "silk stocking genre of Florida" trying to find an issue upon which they hope to defeat Jim Lee. The silk stocking boys dodged and escaped paying taxes for many years and the tax structure broke down because the little fellows were crushed by the tax load and went on strike.

The boys in the shops and on the farms, the small tax payers, are now being crushed under his administration, "big boys" have been having to carry their part of the tax load; they are getting tired and want to shift back to the shoulders of the little fellow and can't do the job as long as Jim Lee is on guard.

The trick of the silk stocking gang won't work, and as long as the rich enjoy our sunshine, our matchless climate and good government, they are going to come across with their part of the tax money, for the voters are going to keep Jim Lee on the job to see that they do come across.—Jasper News.

### WAR BONDS GO FOR TAXES

Long lines of taxpayers jammed post offices and banks this week, cashing war bonds to meet the June 15 deadline.

At Detroit the post office handled 2,500 to 3,000 a day; banks did a bigger business—an estimated 25,000 on one day. When the federal reserve bank opened there yesterday morning about 100 persons were waiting. Much the same story is told in Chicago, San Francisco, New York.

As they did before March 15, the taxpayers are borrowing from the banks, too. One Detroit loan manager reported a "consider-

able increase" in applications; he says the advances for taxes are greater now than three months ago. Some New York banks with large personal loan departments report less borrowing however.

Treasury figures show \$26.9 million of war bonds redeemed in the first seven days of June, vs. \$55.3 million in the first week of March. Purchase dropped to \$105.7 million in the first week June, compared with \$197 million in the March week.—Wall Street Journal.

### TALKING DOG

Bing Crosby tells the one about the two horses discussing their prospects for a race. "I've got this race in the bag," declared the first horse. "Nonsense! I'm in rare form today," replied the second nag. Just then a dog trotted by. "Listen, fellows," said the dog, "I don't think either of you will win." The horses looked up in amazement. "Look!" said the first horse, "A talking dog!"—Collier County News.

### UNNECESSARY DISCORD

It is incomprehensible that residents of other sections will not concede that the intelligent, sensible and educated members of the states in which negro and white populations are about equal, know more about this particular phase of racial policy than anyone else could be expected to know. They concede that growers in South Florida know more about oranges than Boston college professors. They concede that Texans know more about the open range than New York brokers. They concede that lumberjacks know more about trees than Hartford insurance men. But they do not concede that we know anywhere near as much about this subject as well-meaning individuals who lack experience of it.

That is why we have such distressing disturbances attributed in part by the acting adjutant general of Alabama to Washington labor and racial policies.

Left to our own devices, we would never have any trouble. Interfered with by persons who have a surplus of good intentions and a deficit of knowing and experience, we have discord. It is not necessary.—Tallahassee Democrat.

## CINEMATIC CHATTER.....

—By MALCOLM MILLAR—

What The Movies Have To Offer During The Coming Week

Tales of the Orient, with its mysticism, indescribable beauty and richness are always charming, but none quite so charming as "Arabian Nights," a "breath taking story of the ancient land of India."

"Arabian Nights" has been done before in pictures. Once, if your memory doesn't fail you, by Eddie Gantor. This latest version, in beautiful technicolor, boasts a huge cast headed by Jon Hall, Maria Montez, Sabu (the Elephant Boy), Laila Erickson and Phil Gilbert.

1000 charging horsemen in flaming combat; 500 gorgeous harem queens in their silken prisons; Bagdad and its sprawling, bawling streets of pleasure! The slave market and its bewitching captives! The torture rack! The burning of Bagdad—all these and many more thrills are packed in this delightful fairy tale that will long live in your memory.

"Arabian Nights" will be screened at the Prince Theatre on this week show Saturday and the Sunday-Monday regular schedule run, along with a suitable program of short subjects and the current news.

For your Tuesday-Wednesday screening comes "He's My God," which is strictly on the laugh side. This one stars Joan Davis and features Dick Foran, Irene Hervey, Patsy Knight, Don Douglas, Samuel C. Hinds, Bill Halligan. The Diamond Brothers and the Mills Brothers.

Its acrobatic takes place in a defense plant. A break up of the virtuoso team of Moore and Allen, played by Dick Foran and Irene Hervey, brings Miss Allen to live with Joan Davis. Joan secures a job for Miss Allen as secretary to the personnel manager of the plant. A show is suggested and Miss Allen sends for her former partner Moore to help her stage the show. Together they put on a very successful musical comedy and are offered positions as directors of entertainment at the plant.

The current news and entertaining short subjects round out a delightful evening's pleasure. I know that everyone enjoyed it and realize that we've been through all this before and more when you count your change you'll find the balance isn't as bad as you had imagined.

It is still a good world and promises to be a better one, so don't sell America short.

"It comes up Love," which was rather a surprise, due to the title not sounding too hot. I am equally sure that everyone will enjoy the Thursday-Friday screening, "My Heart Belongs To Daddy," which stars Richard Carlson, Martha O'Driscoll and Cecil Kellaway, with Francis Gifford, Florence Bates and Mabel Paige.

The short subjects on this program look particularly good and are topped off with the current news.

For the members of the Six Shooters Club there is a breezy story of the land of cattle under the title of "Stagecoach Express." On the same program will be the usual comedies and the current news.

There it is children! Oh yeah, we are still fighting a war and those war bonds and stamps, which we have for you at the theatre, are really getting the stuff to our boys. Do your part! See you at the movies.—Mal.

Northern industrial interests have taken over the plant of the Badcock Aircraft Corporation at Detroit. The company is manufacturing gliders for the government.

This would never happen if we could help it. But the tremendous demand among our increased population plus government priorities and limited supplies of raw materials have created a situation beyond our control.

However, don't assume that your dealer is out of JAX. Always remember that you can't buy better beer at any price—and ask for JAX!

## TOO LATE TO CLASSIFY

by Russell Kay

It is a good idea to count your change and see where you stand. As a nation we are inclined to forget easily and when confronted with typical situations or problems view them as new and alarming.

The past few weeks have seen much confusion, "bickering" and back-biting on the home front. Strikes and rumors of strikes have kept us on edge. Zoot-suit and racial riots have broken out to retard the war effort and disturb internal activities.

Last week I gathered up my pet pipe—the one Newman Brackin, representative from Oklaheena, gave me during the legislative session—and sneaked over to the Tampa Tribune to spend an afternoon going over the old files.

I carefully checked the month of June, 1937, to see what was happening then and compare it with what happened in June, 1943. I found it downright interesting and figured you might find it equally so. Here were some of the headlines:

"General Pershing Leads American Army in France"; "People Asked to Take Their Own Bundles"; "Four American and Five French Ships Torpedoed in Week"; "Coal Shortage Looms"; "Two Mills of DuPont Powder Company Destroyed by Blast"; "Gompers Warns of Unrest Unless Food Prices Stabilized"; "Ask Hundred Million for Red Cross"; "Suffragettes Picket White House, Angry Mob Smash Banners from Marching Women

Starting Hint"—"Japan Tells United States Not to Worry About China"; "Congress Struggles with Food Bill"; "Secretary Daniels Claims of Liquor Sales to Sailors"; "Major General Leonard Wood Charges People Apathetic"; "Coal Miners Strike in Alabama"; DOESN'T IT ALL HAVE A SORT OF FAMILIAR RING?

Then, getting closer home, I ran into state news headlines that gave a chuckle. Here is a sample. "Jerry Carter Takes Office as State Hotel Commissioner"; "Florida Press Association Meets in Jacksonville"; "Legislature Establishes Livestock Sanitary Board and State Marketing Bureau"; "Ernest Amos States Widows Pensions Now Increased to \$15 Per Month"; "Allie Anglin Gets Tampa Harbor Master Post."

There seemed to be no restraint on travel and among the advertisements I found the Seaboard offering an excursion from Tampa to Atlanta and return, round trip \$17.25. The Clyde Mallory Line offered a round trip to New York for \$38.00—Sunday pleasure seekers were urged to take the steamer "Favorite" from Tampa to Pass-a-Grille, round trip 75c.

The theatres didn't seem to know that there was a war on for they could see "Patty Ardenly" in "The Butcher Boy" at the Strand—admission, adults 10c, children 5c—or Charlie Chaplin in "One A. M." at the Bonita at the same rate.

The high cost of living, that everyone was so alarmed about and had Congress working nights was reflected in the advertisements telling of Coffee, 24 and 25 cents a pound; Palmolive Soap 3 cakes for 25c; Sleepwell Mattresses, \$15.00; Men's No-Fade Shirts, 3 for \$2.75; Men's Underwear, 3 suits for \$2.75; Florsheim Shoes, \$7.50—\$8.00; Creamery Butter, 43c lb.; Hamburger, 12 1/2c lb.; Ladies' Pumps, \$2.49; Men's Lisle Hosiery, 5c pair—Ladies', 11c pair; Window Shades, 33c each; Genuine Coal Cloth and Palm Beach Men's Suits, \$7.50, and \$9.75—and there were cuffs on the trousers and merchants never heard of a ration book. McDoyle's Store in Plant City offered 5 gallons of gas for 25c to any customer making a purchase of \$10 or more.

The Tampa Furniture Company was offering to cash your \$100 Liberty Bond for \$100 on a furniture order—Haircuts were advertised at 25c each—we didn't have a Barber Board in those days.—The Tampa Tribune proudly announced on its masthead, Circulation, 16,500.

Rubber companies were using half-page advertisements, trying to get folks to play safe with a new set of tires. A page ad announced the new Elcar Touring Model at \$875.00 while the Chandler six was presented at \$1,395 delivered.

And that, folks, gives you something to think about. Maybe if you dropped around to your local newspaper office and looked over the back files you'd get a real
